Uploading File from Local Machine to Edge Node

Steps:

1. Login to FTP Server at http://bdlabs.edureka.co:50004 using the credential provided in your LMS.
2. Click on Upload Files button for uploading files.

3.   Browse to the required directory and select the file(s) to upload.
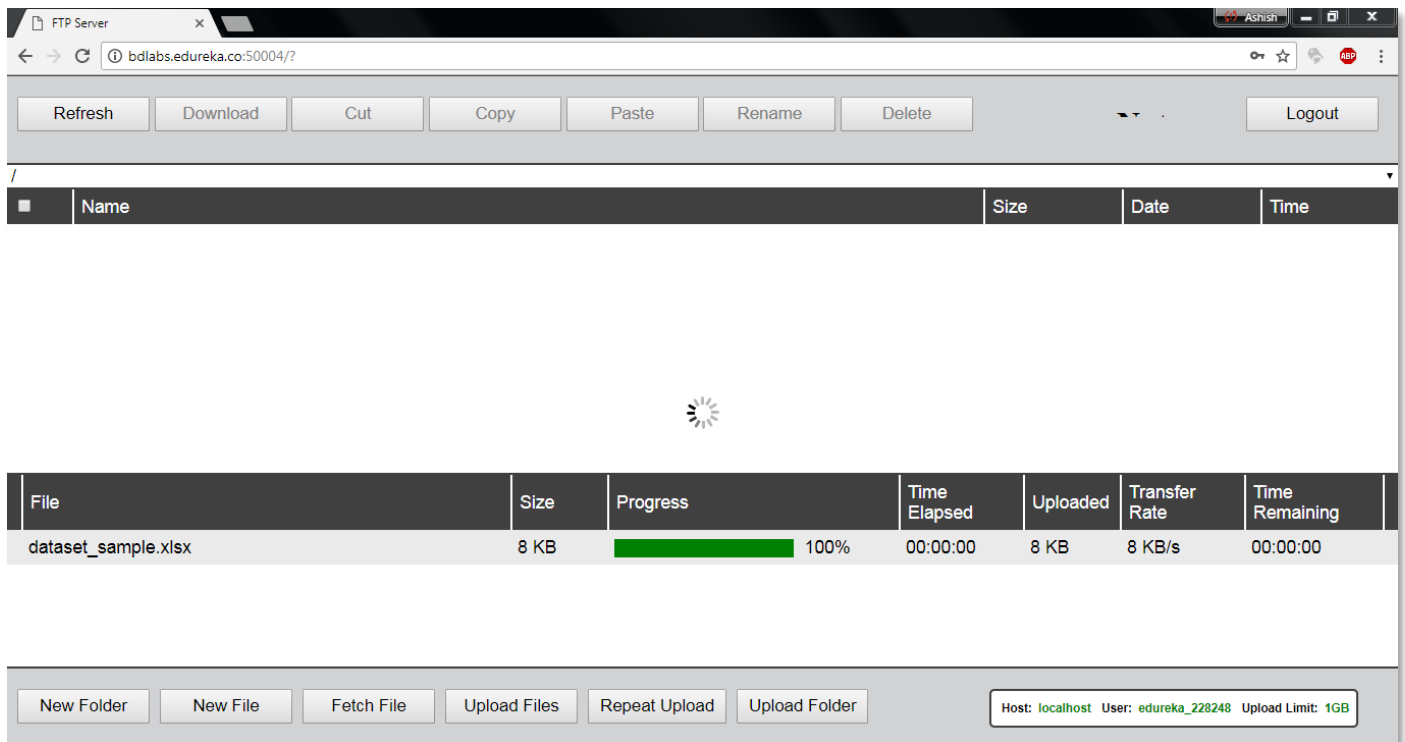

Additional Information:

▪   R-W-X permission for **/user/<username>** in **HDFS**

▪   R-W-X permission for **/mnt/home/<username>** in the **Edge Node**

▪   HDFS Space Quota Per User: **5GB (without replication)**

▪   Edge Node Space Quota Per User: **1GB**

Note: Edge node acts as an interface between the Hadoop cluster and the outside network. It is used to submit the client applications to be run on the cluster and therefore, is also referred as gateway node.
